

Szabi Keresztes

As a software consultant who specialises in web technologies, I have worked with clients in public and private sectors to make their **digital transformation** a reality and implement their ideas.

Being experienced in delivering interactive and data driven **applications** powered by highly scalable, resilient and cost effective **cloud solutions**, I aim to maximise customer value and satisfaction. I am looking for a Senior/Lead Software Engineering role within a purpose-driven, fun organisation that embraces the DevOps culture.

Experience

Software Engineer at BJSS

- Building a web abstraction over a COVID-19 risk assessment algorithm and making it available for clinicians across England
- Delivered and supported a cross-platform mobile application targeting iOS (device: iPad Pro), powered by serverless technology, digitising a paper-based assessment process and meeting GDS guidelines
- Implemented authentication with social identity providers for an online social game
- Made a responsive website with Material-UI

Full-stack Web Developer at RightIndem

- Implemented configuration based, white labelled and highly scalable solutions using CQRS event sourcing concepts
- Worked on a green-field product while acquiring the TDD mind-set

Co-founder at Wraptime

- Developed a cross-platform mobile app with React Native, supported by RESTful API written in Node
- Managed a diverse team and introduced Agile methodologies

.Net Developer at Branded3 and ComKnow

- Built highly scalable enterprise products as well as smaller websites using C#, .Net, MVC, Web API, Entity Framework, HTML5, CSS3 & JQuery

iOS Developer (intern) at Reea

- Developed a mobile application for a media event
